Mr. Kaine. Mr. President, our Nation's ongoing success and economic mobility depends on the skills and education of the American workforce and its preparedness to meet and adjust to the demands of today's economy. Career and technical education (CTE) programs are an essential component to each student's education, giving students the opportunity to gain knowledge, skills, and credentials needed to secure careers in growing, high-demand fields. Today, approximately 12 million students are enrolled in CTE across the country with CTE programs in thousands of CTE centers, comprehensive high schools, career academies, CTE high schools, and community colleges. Through applied learning, these students obtain technical and employability skills that parallel workforce demand.

According to the American Federation of Teachers, 94 percent of parents approve of expanding access to CTE and other programs that prepare students for jobs. CTE ensures that competitive and skilled workers are ready, willing, and capable of holding jobs in high-wage, high-skill, and in-demand career fields. Throughout Virginia, I've heard manufacturers express discontent with shortage of qualified skilled production employees—roles that require the instruction and training offered in CTE classrooms. It is vital that we heighten awareness of CTE's role in helping the United States to meet the very real and immediate challenges of economic development, student achievement, and global competitiveness.

This is why today, with my Senate CTE Caucus co-chairs Senator PORTMAN, SENATOR BALDWIN, and Senator YOUNG and 41 colleagues in the Senate, I am proud to introduce a bipartisan resolution to designate February as Career and Technical Education (CTE) month. CTE Month offers an opportunity for students, parents, counselors, educators and school leaders to become more informed about the educational opportunities attainable in their communities, and acknowledge the importance of CTE in cultivating a skilled and well-educated workforce in our nation.

Through formal recognition of CTE Month through this resolution, it is our hope that we can foster greater support for the importance of improving access to high-quality CTE for millions of America's students and our country's continued economic competitiveness.
